

25 September 2026

Hi screening people,

I am Moira Kells. I did the equipment shed at Magpies juniors in 2024 and most of 2025. Callum was there those years. I don't write these letters much. He asked me and this is what I saw.

He turned up and got the cones out. If I had put the wrong bib bag near the door he checked it rather than having a go at me. He waited at the shed till Tessa was ready and the children stayed with the coach. At pack up he counted the drink bottles so we did not chuck somebody's good one in the lost box. The little things count when everyone wants to go home.

I did not see Callum threaten or shout angrily at a child during either season.

I was mostly near the shed, so I did not see every minute on the field. I heard the coaches calling drills sometimes. That is different to an angry yell in my opinion. I never had to tell the committee there was a problem with him. We did have a broken wheel on a trolley and he tied it off so nobody used it till it was fixed.

He told me there was an old court thing and a relationship order. I don't know the details and I wasn't there. I am not writing to say police were wrong or somebody else caused it. I am writing about the club jobs where I knew him.

I reckon he listened to Tessa. Once training changed grounds at short notice and he had to carry bags back to the car park. He grumbled about the walking but did the job. Everybody grumbled that afternoon. I would be happy to work around him at the shed again with the club arrangement.

That's all I can say really.
